Its time to stand up and SAY No to 0870, 0844, 0845 or 0871 these numbers are a complete rip off. The companies that use them make a profit each time you call them. Most mobile and fixed line contracts exclude them from your free call allowance so your forced to pay anything up to 15p a minute. I have a website that will give you all the info you need to never pay these fees again and its completely FREE!!

Visit [saynoto0870](#) to get all the local numbers for companies that you use. That way calls to them will be included in your call allowance.

Remember Local numbers always begin 01 or 02
